

L E R M A

FEATURES

BED BASE

- Epoxy-coated steel tube frame.
- Headboard and footboard easy to assemble without tools.
- Complete with supports for accessories (IV drip rod, lifting pole, etc.).
- Mattress retainers on both sides. They contribute to positioning the lying surface sections correctly.

COMFORT

- Two sections made in epoxy coated steel mesh
- Useful surface: 100%.
- Backrest adjustment by means of a specially designed screw for effortless operation.

MANOEUVRABILITY

- Fixed height: 500 mm.
- For improved manoeuvrability, the bed features with four 125 mm diameter pivoting castors (two brake castors, two freewheeling castors).
- Four buffers (one on each corner of the bed base).

OPTIONAL

- Collapsible side rails (ref. CHV 28).
- Without wheels ref. LERMAS/R
